

# 2019 - 2020 CLASS DESCRIPTIONS

Our classes are divided based on a student's age and skill level. Both previous and newly registered students have to be assessed by each respective Instructor to determine his/her suitable class. We have a curriculum and lesson plan for each level that we have developed through our many years of learning and experience. Each and every student learns and progresses at different pace - some may take more time in a level, while others learn in less time. Therefore students do not automatically move to the next level each year. A student moves to an appropriate level as he/she safely acquire the knowledge of the genre, master the correct form, and learn the technique with proper execution; not just certain combinations. Our instructors closely monitor the progress of each student to ensure that the student is strong, confident and technically well prepared to move up. We understand and respect everyone's uniqueness and encourage each child to give his/her best.
